---

### SUMMARY

Motivated **Software Developer** with experience in Python, JavaScript, and web development. Skilled in building efficient, scalable, and user-friendly applications. Proficient in cleaning and analyzing data, creating automated workflows, and collaborating with cross-functional teams to deliver impactful solutions. Passionate about continuous learning and applying innovative technology to solve real-world problems.

---

### SKILLS

#### Programming Languages & Frameworks:

- JavaScript (React)
- Python (Flask)
- HTML, CSS

#### Tools & Technologies:

- Git, GitHub
- SQL
- REST APIs
- Data Cleaning & Analysis

#### Soft Skills:

- Team Collaboration
  - Problem Solving
  - Effective Communication
- 

### PROJECTS

#### Deliveroo Clone

[Live Demo](#)

A courier service application enabling users to deliver parcels across different destinations.

- Developed the frontend using **React** for a responsive and intuitive user experience.
- Integrated APIs to handle location tracking and parcel status updates.

## Testorbit Examination Platform

### [Live Demo](#)

A platform designed to help students prepare for exams with mock tests and performance analysis.

- Created user authentication flows and dashboards using **Python Flask**.
- Ensured scalability by optimizing backend services for concurrent users.

---

## EXPERIENCE

### *Data Analyst | Testorbit Platform*

*Remote | August 2024 – November 2024*

- Automated data cleaning and transformation processes using **Python**, ensuring datasets were prepared for further analysis.
- Extracted unstructured data from text files and converted them into structured **CSV** formats, streamlining data pipelines.
- Built and implemented validation scripts to maintain data integrity, reducing errors by 40%.  
**Key Accomplishment:**
- Delivered a Python-based solution for organizing certification exam data, enabling seamless content updates.

### *Sales Associate | Platinum Credit Limited*

*Nairobi | May 2023 – November 2023*

- Developed strong customer relationships, retaining high satisfaction rates through tailored solutions.
  - Successfully engaged with diverse clients, understanding their needs and delivering tailored solutions to improve customer satisfaction and loyalty.
  - Analyzed customer feedback and sales data to identify trends, optimize strategies, and improve results.
  - Collaborated with teams to implement customer-focused approaches, ensuring seamless service delivery.
  - Gained hands-on experience using CRM tools to track leads and manage client relationships effectively.  
**Key Accomplishment:**
  - Spearheaded a campaign for a new product line, surpassing sales targets in record time.
-

## EDUCATION

*Moringa School*

*Certification in Software Engineering / Completed August 2024*

Relevant Coursework:

- JavaScript (React) for Frontend Development
- Python (Flask) for Backend Development

*Kabete National Polytechnic*

*Diploma in Applied Biology / October 2018*

---

## VOLUNTEER EXPERIENCE

- **Moringa Career Fair 2024:** Led registration, crowd management, and employer feedback, contributing to seamless event execution.
- **Testorbit Platform:** Collaborated with a team to analyze data for an exam prep platform, ensuring accuracy and relevance of mock tests.
